

Remarks:

This amendment is submitted in an earnest effort to advance this case to issue without delay. The examiner has indicated that the case contains allowable subject matter.

The specification has been amended to eliminate some minor obvious errors. No new matter whatsoever has been added.

A new Abstract complying with US requirements is submitted herewith.

There is no art rejection. The formal objection has been addressed in that the multiple dependencies have been eliminated in the claims. Furthermore, the claim language and style has been corrected to better comply with English usage and USPTO style and practice.

If only minor problems that could be corrected by means of a telephone conference stand in the way of allowance of this

case, the examiner is invited to call the undersigned to make the necessary corrections.
